BID BULLETIN NO. 4

26 June 2018

This pertains to the query of Eaglematrix Security Inc. as follows:

- 1. Considering the difficulty and costs of going in Palanan and Basco Airports, as well as time constraints, can these facilities be exempted in the conduct of site survey and submission of Security Survey Report and in lieu thereof, the bidder will execute and submit an undertaking to conduct the survey once the contract is awarded to the winning bidder.*

SBAC Response:

No. The following facilities are not exempted from site inspection. The conduct of a site inspection is required so that prospective bidders will have full knowledge on the areas that are subject of the bid activity and to prevent future disagreements between the Authority and the bidder on the state and conditions of the areas requiring security services.

This Bid Bulletin shall be an integral part of the Bidding Documents. Bids not complying with the above instruction shall be disqualified.

For the information and guidance of all concerned.
