October 27, 2025

REQUEST FOR PRICE QUOTATION

The Civil Aviation Authority of the Philippines (CAAP) Area Center III hereby invites interested bidders for the EXPANSION OF PTB/ADMIN OFFICE WITH COMFORT ROOM (6m x 6m) AT CALAPAN AIRPORT.

Approved budget for the project – Php 899,961.54

Please secure Canvass form from www.philgeps.gov.ph or at the Regional Office, Area Center III during office hours Monday to Friday starting October 28, 2025.

The sealed quotation shall be submitted at the Civil Aviation Authority of the Philippines Regional Office, Area Center 3, Civil Aviation Complex, Clark Freeport Zone, Mabalacat Pampanga on or before November 4, 2025 at 10:00am to the Bids and Awards Committee and will be opened on the same date at 2:00pm. Indicate in the sealed envelope the name of the Project you are participating.

The CAAP Area Center III reserves the right to accept or reject any bid, and to annul the bidding process and reject all Bids at any time prior to contract award without thereby incurring any liability to the affected Bidder/s.

You may call CAAP Area Center III BAC Secretariat Members at 0282464988 local 2258 for details.

Very truly yours,

ATTY. ROAN JILL E. HABOC
BAC Chairperson

Republic of the Philippines

CIVIL AVIATION AUTHORITY OF THE PHILIPPINES

REQUEST FOR QUOTATION

Date :
APP Item No : 3484-10604010

Company/Business Name:
Address:
Business/Mayor's Permit No.:
TIN:
PhilGEPS Registration Number (required for ABC above 50k):

The Civil Aviation Authority of the Philippines - AreaCenter III, through its Bids and Awards Committee (BAC), intends to procure the Expansion of PTB / Admin Office with Comfort Room (6m x 6m) at Calapan Airport through Section 53.9 (Negotiated Procurement - Small Value Procurement) of the 2016 Revised Implementing Rules and Regulations of Republic Act No. 9184.

Please quote your best offer for the item/s described herein, subject to the Terms and Conditions provided on this Request for Quotation (RFQ). Submit your quotation duly signed by you or your duly authorized representative not later than the deadline on November 04, 2025 at 10:00 a.m.

Table with 2 columns: Document, Remarks. Rows include: Copy of 2025 Mayor's or Business Permit, Original Notarized Omnibus Sworn Statement, PhilGEPS Registration Certificate, PCAB License, Latest Annual Income / Business Tax Return.

Performance Security (for ABCs above P50k)	Once the Notice of Award of the Project is given, the winning bidder is required to submit Performance Security prior to the signing of the contract as prescribed by Section 39 of Updated 206 Revised IRR of RA 9184 to wit:	
	Form of Performance Security	Amount of Performance Security (Not less than the required percentage of the Total Contract Price)
	a.) Cash or cashier's/manager's check issued by a Universal or Commercial Bank. For biddings conducted by LGUs, the cashier's/manager's check may be issued by other banks certified by the BSP as authorized to issue such financial instrument. (a)	
	b.) Bank draft/guarantee or irrevocable letter of credit issued by a Universal or Commercial Bank: Provided, however, That is shall be confirmed or authenticated by a Universal or Commercial Bank, if issued by a foreign bank. For biddings conducted by LGUs, bank draft/guarantee, or irrevocable letter of credit may be issued by other banks certified by the BSP as authorized to issue such financial instrument. (a)	Goods and Consulting Services – Five percent (5%) Infrastructure Projects - Ten percent (10%)
	c.) Surety bond callable upon demand issued by a surety or insurance company duly certified by the Insurance Commission as authorized to issue such security.	Thirty percent (30%)
Non-submission of Performance Security shall warrant disqualification of bids as mandated by Section 40 of Updated 2016 Revised IRR of RA 9184.		

For any clarification, you may contact us at telephone no. **(045) 499-1663** or email address at **bac_area3@caap.gov.ph**.

ROAN JILLE E. HABOC
 BAC Chairperson

¹ In case of discrepancy on the business name as reflected on this RFQ and as reflected in the Business Permit, the latter shall prevail.

INSTRUCTIONS:

Note: Failure to follow these instructions will disqualify your entire quotation.

- (1) Do not alter the contents of this form in any way.
- (2) The use of this RFQ is **highly encouraged** to minimize errors or omissions of the required mandatory provisions. In case of any changes, bidders must use or refer to the latest version of the RFQ, except when the latest version of the RFQ **only** pertains to deadline extension.

If another form is used other than the latest RFQ, the quotation shall contain all the mandatory requirements/provisions including manifestation on the agreement with Terms and Conditions below.

In case a prospective supplier/service provider submits a filled-out RFQ with a supporting document (i.e., a price quotation in a different format), both documents shall be considered unless there will be discrepancies. In this case, provisions in the RFQ shall prevail.
- (3) **All mandatory technical specifications (with asterisk) must be complied with.** Failure to comply with the mandatory requirements shall render the quotation ineligible/disqualified.
- (4) Quotations may be submitted through electronic mail at **bac_area3@caap.gov.ph**.
- (5) Quotations, including documentary requirements, received after the deadline shall not be accepted. For quotations submitted via electronic mail, the date and time of receipt indicated in the email shall be considered.

TERMS AND CONDITIONS:

1. Bidders shall provide correct and accurate information required in this form.
2. Any interlineations, erasures, or overwriting shall be valid only if they are signed or initialed by you or any of your duly authorized representative/s.
3. Price quotation/s must be valid for a period of thirty (30) calendar days from the deadline of submission.
4. Price quotation/s, to be denominated in Philippine peso, shall include all taxes, duties, and/or levies payable.
5. Quotations exceeding the Approved Budget for the Contract shall be rejected.
6. In case of two or more bidders are determined to have submitted the Lowest Calculated Quotation/Lowest Calculated and Responsive Quotation, CAAP Area Center III shall adopt and employ "draw lots" as the tie-breaking method to finally determine the single winning provider in accordance with GPPB Circular 06-2005.
7. Award of contract shall be made to the lowest quotation which complies with the technical specifications, requirements and other terms and conditions stated herein.
8. The item/s shall be delivered according to the accepted offer of the bidder.
9. Item/s delivered shall be inspected on the scheduled date and time of the CAAP Area Center III. The delivery of the item/s shall be acknowledged upon the delivery to confirm compliance with the technical specifications
10. Payment shall be made after delivery and upon the submission of the required supporting documents, i.e., Order Slip and/or Billing statement, by the supplier, contractor, or consultant. Our Government Servicing Bank, i.e., the Land Bank of the Philippines, shall consultant not earlier than twenty-four (24) hours, but not later than forty-eight (48) hours, upon receipt of our advice. Please note that the corresponding bank transfer fee, if any, shall be chargeable to the account of the supplier, contractor, or consultant.

11. Liquidated damages equivalent to one-tenth of one percent (0.1%) of the value of the goods/ services/equipment not complied/delivered within the prescribed delivery period shall be imposed per day of delay. The CAAP Area Center III may terminate the contract once the cumulative amount of liquidated damages reaches ten percent (10%) of the amount of the contract, without prejudice to other courses of action and remedies open to it.
12. All transactions are subject to withholding of credible Government Taxes per revenue regulation(s) of the Bureau of Internal Revenue.
13. For first time bidder, you are required to submit a portfolio of manpower and equipment of your company.
14. Upon Post Qualification, the Winning Bidder, must also submit Tax receipts from Bureau of Customs as proof of payment of all taxes and duties due on the equipment, if the said equipment was bought outside the Philippines.

After having carefully read and accepted the Instructions and Terms and Conditions, I/we submit our quotation/s for the item/s as follows:

CONSTRUCTION NOTES:

10 GENERAL NOTES:

- 11 The Contractor shall verify all dimensions and conditions at the site, and shall notify the Engineer of discrepancies between actual conditions and information shown on the drawings before proceeding with the work. This shall include the location and dimensions of girders, rebar, sleeves, curbs, openings, embedded or attach items, etc. Refer to Architectural, Mechanical, Electrical and Plumbing Drawings.
- 12 All dimensions shall take precedence over scale shown on plans, sections or details. Notes and details on drawings shall take precedence over general notes and typical details.
- 13 The Contract, Structural Drawings and Specifications represent the finished structures. They do not indicate the method of construction unless so stated. The Contractor shall provide all necessary measures to protect the structures, adjacent properties, workmen and other persons during all phases of construction.
- 14 The Contractor shall immediately notify the Owner and/or the Project in charge of any condition which in his opinion might endanger the stability of the structures or cause distress in the structures.
- 15 Construction materials shall not be stored on poured floors. It is the General Contractor responsibility to ensure that the Sub-Contractors are informed and do not violate this important requirement.
- 16 The Contractor shall provide temporary erection bracing and shoring for all the structural members as required for structural stability during all phases of construction.
- 17 The Contractor shall take all steps necessary to ensure the proper alignment of the structures after the installation of all structural and finish materials.

20 MATERIAL SPECIFICATION

- 21 Mix Design shall conform to ACI 211.3 & ACI 301. The minimum compressive strength shall be:
 - FC = 20.78 Mpa (3000 Psi) Foundations, Columns, Beams and Suspended Slabs.
 - FC = 20.7 Mpa (3000 Psi) Slabs on Fill, Graded Slabs.
- 22 Cement for the concrete shall conform to the requirements of the "Specifications for the Portland Cement" (ASTM C 150, Latest Edition).
 - Fine Aggregates: Shall consist of natural port. sand. Fine aggregates shall consist of hard, tough, durable, uncoated particles. The stipulated percentage of fines in the sand shall be obtained either by the processing of natural sand or by the production of a suitably graded manufactured sand.
 - Coarse Aggregates: Shall consist of gravel, crushed gravel or rock, or a combination of gravel and crushed gravel or rock, as per approved by the Structural Engineer. The coarse aggregate, as delivered to the site shall have a uniform and suitable moisture content.
 - Footings: ----- T or X (25mm or 1" nominal)
 - RC Beams, Columns, Slabs, Wall Footings, Lintel Beams: ----- X (19mm)
- 23 Water used in making concrete shall be clean and free from injurious amounts of oils, acids, salts, alkalis, organic materials or other substances deleterious to concrete or steel.
- 24 Admixtures to be used in concrete shall be subjected to prior approval of the Structural Engineer.
- 25 The concrete slab on fill shall be laid on a prepared foundation consisting of a sub-grade and granular fill with thickness of overlying slab except as indicated otherwise. Sub-grade shall be rolled, rammed and tamped to a thoroughly compacted foundation.
- 26 All concrete shall deposited, vibrated and cured in accordance with ACI Standard 318-95.

- 27 Concrete cover over reinforcing bars shall be as follows:
 - Footings and bottom of footing for Beams ----- 75mm (least against earth)
 - Beams and Columns ----- 40mm (for stirrups and rest)
 - Walls and Sides of Footing for Beams ----- 50mm (cast against form)
 - Equipment Foundation ----- 75mm
- 28 Rebar concrete is poured checked with all trades to ensure proper placement of all openings, sleeves, curbs, conduits, etc. relative to the work.

- 29 Unless otherwise specified on plans, all reinforcing bars shall be deformed conforming to ASTM A706, with a minimum yield strength of reinforcement shall be enumerated below:
 - Footings / footing for Beams: ----- Fy = 40,000 Psi
 - Columns / Beams: ----- Fy = 40,000 Psi
 - Slabs (on grade and suspended): ----- Fy = 40,000 Psi

- 210 All reinforcing bars shall be clean of rust, grease or other materials which tend to impair bond.
- 211 Unless otherwise noted in the plans or specifications, Cantor all RC Beams at least form for every 4' span or span except cantilevers which shall form for every 3ft of span. If there are two (2) or more layers of reinforcing bars, use 25mm diameter separators spaced at 900mm o.c. Top bars splices shall be located at midspan and both bar splices at column supports.
- 212 All reinforcing bars shall be accurately and securely placed before pouring concrete or applying mortar or grout.

- 213 Unless indicated otherwise, all beams terminating at the column shall have top and bottom bars extending to the far face of the column terminating in a standard 90 degree hook length of anchorage not less than 600mm.
- 214 Lapped splices shall be staggered where possible.
- 215 Unless indicated otherwise, splicing of reinforcement shall be in accordance with ACI 318-95. Except that the minimum lap splice shall be 40 bar diameter but less than 600mm.
- 216 Vertical and horizontal reinforcements for CHB shall be 10mm @ 600mm for all wall thickness. Lap splices shall be 300mm long (nominal).

- 217 Where CHB walls, adjoin columns and beams, provide dowels on FC columns and beams prior to pouring to match CHB wall reinforcement. The dowels shall be 12mm bars at 400mm o.c., unless otherwise shown on the drawings.
- 218 Where columns and beams have been poured without the CHB wall dowels, provide them & expansion bolts at 400mm o.c. These anchors shall be drilled and hammered in place (no chipping or of concrete columns and beams is allowed unless otherwise permitted by the Structural Engineer.
- 219 Welding electrodes and rods, conforming to AWS D11.

- 220 Shop joint structural steel, except as modified herein. Do not Paint steel surfaces embedded in concrete, galvanized surfaces, or surfaces within 3" of the face of the welds prior to welding. Prior to assembly, paint surfaces which will be concealed or inaccessible after assembly. Do not paint in 100% or rainy weather, when the ambient temperature is below 45 deg F or over 75 deg F, or when paint may be exposed to temperatures below 40 deg F within 48 hours after application, unless approved otherwise.

- 221 Details of all welded splices shall be submitted by the contractor for approval by the Structural Engineer. Only certified welders shall be allowed to perform welding operations. These welders shall subject to the approval of the Project Manager.
- 222 Shop joint structural steel, except as modified herein. Do not Paint steel surfaces embedded in concrete, galvanized surfaces, or surfaces within 3" of the face of the welds prior to welding. Prior to assembly, paint surfaces which will be concealed or inaccessible after assembly. Do not paint in 100% or rainy weather, when the ambient temperature is below 45 deg F or over 75 deg F, or when paint may be exposed to temperatures below 40 deg F within 48 hours after application, unless approved otherwise.

- 223 SSPC SP 6, Ex 1(a) as modified herein. SSPC SP 3 or SP 6 for steel surfaces exposed in spouts above ceilings, attic spaces, crawl spaces, furled spaces and chases. In addition, maintain steel surfaces free from rust, dirt, oil, grease and other contaminants through final assembly.
- 224 Immediately after cleaning, provide the metal surfaces with one coat of ML SPEC DDD - P - 15378 pretreatment to a dry film thickness of 0.3 to 0.5 ML FED SPEC TT - C - 499 pretreatment may be applied to SSPC SP 6 cleaned surfaces in accordance with FED SPEC 11 - C - 450

- 225 Immediately after the pretreatment coating has dried, apply primer to a minimum dry film thickness of 2.0 MIL. Repair damaged primed surfaces with an additional coat primer.

DATE: *[Handwritten]*

SCOPE OF WORK

I. GENERAL

The works to be accomplished by the successful bidder shall consist of furnishing, supervision, labor, materials, supplies, tools and equipment to complete the **Expansion of PTB/Admin office with Comfort Room (6m x 6m) at Calapan Airport**.

II. LOCATION OF PROJECT

The Contract to be bid is located at **Calapan Airport, Calapan, Oriental Mindoro**.

III. SCOPE OF WORK

The details of work are at best enumerated below, but be noted that the Contract includes all works and services although not specifically mentioned herein, but are needed to fully complete the Project.

The Project covers the supply of labor, materials, mobilization/demobilization, tools/equipment, necessary for **Expansion of PTB/Admin office with Comfort Room (6m x 6m) at Calapan Airport** with the following scope of works which shall be done in accordance with the approved plans, specifications and provision of contract to wit: (Work shall include but is not limited to the following);

1. Mobilization / Demobilization

This work includes mobilization and demobilization of the contractor's manpower and equipment necessary for performing the work required under the contract.

- a. Mobilization shall include all activities and associated costs for transportation of contractor's personnel, equipment, and operating supplies to the site; establishment of offices, buildings and other necessary general facilities for the contractor's operations at the site.
- b. Demobilization shall include the disassembly, hauling/removal of debris/rubbish, and site clean-up of offices, buildings and other facilities assembled on the site.

c. Project Information Sign

The contractor shall provide temporary construction Project information signage and the location shall be coordinated with the Assigned Engineer or Architect on Site.

Sign Panel - Use ½" x 2' x 3' Marine plywood with post and bracing.

Republic of the Philippines

CIVIL AVIATION AUTHORITY OF THE PHILIPPINES

2. Civil Works

a. Excavation

The work includes manpower, and minor tools and equipment for the excavation prior to the construction of footings. (The execution for this Item shall be observed and approved by the Project-In-Charge designated by the CAAP).

b. Concrete Works

The work includes manpower, and minor tools for the concreting of substructures and superstructures. The concrete specifications shall be in accordance with the plans. (The materials and the execution shall be carefully observed by the Project-In-Charge designated by the CAAP).

- Total volume of concrete: 11.23 m³.

c. Steel Works

The work includes labor, and minor tools and equipment needed for the fabrication of rebars of the substructures and superstructures, and fabrication of steel roof trusses. The specifications, splices and splice locations, and lap length of the reinforcing steel bars shall be in accordance with the plans. The specifications and the fabrication of the steel truss shall be in accordance with the plans. (The materials and the execution for this Item shall be closely supervised by the Project-In-Charge designated by the CAAP).

d. Roofing Works

The work includes labor, materials, and tools necessary for the installation of pre-painted long span rib type, gutters, ridge rolls, and flashings. (Materials and workmanship shall be approved by the Project-in-Charge designated by the CAAP).

3. Architectural Works

a. Painting Works

The work includes labor, materials and minor tools for the painting of interior and exterior walls, floors, and ceiling. Proper procedure must be observed to attain the desirable result. (Materials and implementation for this activity shall be observed and approved by the Project-In-Charge assigned by the CAAP).

- Interior wall area: 81.86 sq.m.
- Exterior wall area: 45 sq.m.
- Ceiling area: 36 sq.m.

Republic of the Philippines

CIVIL AVIATION AUTHORITY OF THE PHILIPPINES

b. Tile Works

The work includes labor, materials, and tools necessary for the installation of 300mm x 300mm floor and wall tiles in the toilet and 600mm x 600mm floor tiles in the office. Correct level and spaces between tiles shall be carefully and properly observed. (Materials and workmanship shall be approved by the Project-in-Charge designated by the CAAP).

- Area for floor tile installation of toilet: 11 sq.m.
- Area for wall tile installation of toilet: 4 sq.m.
- Area for floor tile installation of office: 43 sq.m.

c. Doors and Windows

The work includes labor, materials, and tools necessary for the supply and installation of doors and windows as well as the window blinds and tints of the office extension. (Materials and workmanship shall be approved by the Project-in-Charge designated by the CAAP).

4. Electrical Works

This work includes labor, materials and minor tools for the installation of electrical fixtures and accessories of the extension. (Materials and workmanship shall be approved by the Project-in-Charge designated by the CAAP).

5. Plumbing Works

The work includes labor, materials and minor tools for the provision and installation of toilet fixtures, water line and sewer line of the office toilet. Proper execution shall be observed to avoid unnecessary issues such as leakage and foul odor due to the improper provision of air vent. (Materials and the implementation for this activity shall be observed and approved by the Project-In-Charge assigned by the CAAP).

Republic of the Philippines
CIVIL AVIATION AUTHORITY OF THE PHILIPPINES

All scope of work to this item must be according to the approved plan and specifications. Quality and types of materials must conform and approved by the Project Engineer assigned by CAAP.

The contractor shall be responsible in providing the personal protective equipment (PPE) for staffs and workers, and Safety Inspectors or Safety Engineers on site while construction is ongoing. Regular safety reports shall be reported.

The contractor shall be responsible for all laboratory, material testing, environmental compliance certificate (ECC), building and safety permits and survey instruments necessary in the project implementation (if needed). All expenses shall be incorporated in the contractor's overhead cost and shall not be considered as pay item.
